### Keynote Lectures-1

Vice Minister **Wei-Fuu Yang**

Ministry of Economic Affairs, Taiwan

Speech Title: Towards a Sustainable and Smart Water Future for Taiwan

Mr. Wei-Fuu Yang is Vice Minister of Ministry of Economic Affairs (MOEA) since 2015. As an assistant of the Minister, his responsibility is coordinating the affairs of water resources, mines, geological survey, state-owned enterprise, and information. Before joining MOEA, Yang has served in the water-related agencies for over thirty years and participated in a lot of public construction projects.

Mr. Yang is recognized as a water policy pioneer and water resources expert. Because of his great contributions in water resources, he received many awards from international and domestic organizations such as International Award from International Society of Paddy and Water Environment Engineering, Agricultural Irrigation Award from Taiwan Agricultural Engineers Society, Eminent Career Award from Chinese Water Resources Management Society, and Eminent Career Award from Chinese Institute of Civil and Hydraulic Engineering. He holds a master's degree in Civil Engineering from Colorado State University, USA.
